europe

< S-ERGO 305 >

◆ The lightweight *S-Ergo 305* is equipped with *Karma's* unique, patented *S-Ergo* seating system, which promotes pressure redistribution and helps to prevent the occupant sliding down the seat. The *S-Ergo* seat has been pressure mapped for the optimum shape. In addition to the seating system the wheelchair benefits from detachable anti-bacterial upholstery treated with Aegis microbe shield. *S-Ergo 305* also has patented swing away detachable footrest hangers and flip back height adjustable armrests. Mud guards provide protection for clothes in wet weather and are easily adjustable if the rear wheel position is changed.

S-Ergo seat system
